Hi Nicole - See John Luker email below regarding TASC. Yikes.

FYI, in response to David's vm message on venues for our July meeting, I recommended that he identify the universe of possible venue options (in Chatsworth, Simi, West Hills, etc), then we should decide where our meeting should be.

I also told David that NO decision should be made on TASC until you, me, Luis, and he can get together in mid-June so we can confer and see if we can reach consensus on next steps. I did tell David that, to date, I have seen or heard NO consensus among community members regarding usefulness of TASC at SSFL site.

Craig

p.s. If you want to confer with me on anything, I can call you around 5:30pm EST (2:30PST) everyday this week.

 Subject: TASC

Hi,

I just wanted to thank you guys for coming out on Tuesday. I think you all behaved heroically.

I liked the idea of TASC. I think it would be helpful for my Organization. I help run the Santa Susana Mountain Park Association. We're all dedicated to preserving as much wild space in the local mountains as possible. We've been very interested in end use up at SSFL and how much of the mountain will have to be dug up to meet the very strict standards of SB 990.

I find myself struggling with the material I'm reading. Most of it is understandable, but in some cases I find myself confronted with my own ignorance. Risk Assessment and Uncertainty Analysis are areas I wish I knew more about. This is central to the issues and I find myself trying to explain these very complex problems to others. The blind leading the blind as it were.

A lot of the resources that other community members spoke of Tuesday night are not available to me or my membership. It would be helpful to have someone who is "none of the above" help guide us through. I think TASC has a place here. At some future juncture it may be helpful for you to answer questions from our Board, or

perhaps, we could turn one of our general membership meetings to your presentation.

David, if you could forward these comments on to Luis and Terry I would appreciate it. I'm sorry I didn't get their contact information.

And again.. thank you for coming out.

John Luker

Vice-President,
Santa Susana Mountain Park Association
